

## Plants that can damage your property

2018-06-25 - Lisa - in General

It's not only Japanese Knotweed you need to look out for, this interesting article looks at the damage that can be caused by the roots of Oak, Willow and Poplar trees. The sticky sap secreted by Lime and Pine trees and the damage it can cause to whatever it falls on is covered. English Ivy also gets a mention as this type of ivy can cause problems, as oppose to Virginia Creepers and Boston Ivy.
